relating to Indices and ETF Shares  
(ISIN DE000CZ36RW0)**

Private Placement in the Republic of Finland

## RISK FACTORS

The purchase of structured certificates (the "**Securities**") is associated with certain risks. The information set forth hereinafter merely describes the major risks that are associated with an investment in the Securities in the Issuer's opinion. In this regard, however, **the Issuer expressly points out that the description of the risks associated with an investment in the Securities does not purport to be exhaustive.**

In addition, the order in which such risks are presented does not indicate the extent of their potential commercial effects in the event that they are realised, or the likelihood of their realisation. The realisation of one or more of said risks may adversely affect the assets, finances and profits of Commerzbank Aktiengesellschaft or the value of the Securities themselves.

Moreover, additional risks that are not known at the date of preparation of these Final Terms or are currently believed to be immaterial could likewise have an adverse effect on the value of the Securities.

The occurrence of one or more of the risks disclosed in these Final Terms or any additional risks may lead to a material and sustained loss and, depending on the structure of the Securities, even result in the partial loss or even **total loss** of the investor's capital.

**Investors should purchase the Securities only if they are able to bear the risk of losing the capital invested, including any transaction costs incurred.**

Potential investors in the Securities must in each case determine the suitability of the relevant investment in light of their own personal and financial situation. In particular, potential investors should in each case:

- have sufficient knowledge and experience to make a meaningful evaluation of the Securities, the merits and risks of investing in the Securities and all the information contained in these Final Terms;
- have sufficient financial resources and liquidity to bear all of the risks associated with an investment in the Securities;
- understand thoroughly the Terms and Conditions pertaining to the Securities (the "**Terms and Conditions**") and be familiar with the behaviour of any relevant underlying and the financial markets; and
- be able to evaluate (either alone or with the help of a financial adviser) possible scenarios for economic, interest rate and other factors that may affect the value of their investment and be able to bear the associated risks.

These risk warnings do not substitute advice by the investor's bank or by the investor's legal, business or tax advisers, which should in any event be obtained by the investor in order to be able to assess the consequences of an investment in the Securities. Investment decisions should not be made solely on the basis of the risk warnings set out in these Final Terms since such information cannot serve as a substitute for individual advice and information which is tailored to the requirements, objectives, experience, knowledge and circumstances of the investor concerned.

### **General risks relating to the Securities**

The Securities are subject to - potentially major - price fluctuations and may involve the risk of a **complete or partial loss** of the invested capital (including any costs incurred in connection with the purchase of the Securities). Since the amount of redemption is linked to an underlying (share, index, commodity, metal (i.e. precious metal or industrial metal), futures contract, bond, currency exchange rate, interest rate, fund or a basket or an index that is composed of any of the aforementioned values, commodities or rates (the "**Underlying**"), or to one or more formulae, Securities are investments that might not be suitable for all investors.

**Investors should especially note that the past performance of an Underlying should not be regarded as an indicator of its future performance during the term of the Securities.**

The Securities have complex structures, which the investor might not fully understand. The investor might therefore underestimate the actual risk that is associated with a purchase of the Securities. Therefore, potential investors should study carefully the risks associated with an investment in the Securities (with regard to the Issuer, the type of Securities and/or the Underlying, as applicable), as well as any other information contained these Final Terms, and possibly consult their personal (including tax) advisors. Prior to purchasing Securities, potential investors should ensure that they fully understand the mechanics of the relevant Securities and that they are able to assess and bear the risk of a **(total)** loss of their investment. Prospective purchasers of Securities should in each case consider carefully whether the Securities are suitable for them in the light of their individual circumstances and financial position.

It is possible that the performance of the Securities is adversely affected by several risk factors at the same time. The Issuer, however, is unable to make any reliable prediction on such combined effects.

- **Loss risks**

Potential profits from an investment in the Securities can only be made in the case that the Redemption Amount is higher than the amount, including any transaction costs, at which the Securities have been purchased.

The Securities represent neither a claim to interest (unless in cases where the Terms and Conditions explicitly provide for the payment of interest or the payment of other fixed amounts) nor dividend payments and thus do **not** generate any regular income. This means that it may not be possible to compensate for potential value losses associated with an investment in the Securities through income generated in connection therewith.

In addition, transaction costs that are associated with the purchase or sale of the Securities must be taken into account when considering the economic aspects of an investment. In the case of a total loss in respect of a Security, the transaction costs will increase the loss incurred by the relevant investor.

- **Deviation of the initial issue price from the market value and impact of incidental costs**

The initial issue price in respect of any Securities is based on internal pricing models of the Issuer and may be higher than their market value. The pricing models of other market participants may deviate from the Issuer's internal pricing models and might produce different results. The price that might be obtainable in the secondary market for the Securities might be lower than their initial issue price or the price at which the respective Securities were purchased.

- **Secondary market**

Since the Securities are not listed or traded on any exchange, pricing information for the Securities may be more difficult to obtain. Potential investors may not expect that a liquid secondary market will develop with regard to the Securities providing them with the opportunity to sell on their Securities. Accordingly, potential investors should be prepared to hold the Securities until the Redemption Date.

In the secondary market, if any, the Securities will be traded at a spread between bid and offer prices.

The price of the Securities can be highly volatile depending on the volatility of the prices of the Underlying, remaining terms of the Securities and other factors.

- **Impact of a downgrading of the credit rating**

The value of the Securities could be affected by the ratings given to the Issuer by rating agencies. Any downgrading of the Issuer's rating by even one of these rating agencies could result in a reduction in the value of the Securities.

- **Leverage effect / Risk of disproportionate high losses**

Some Securities may be structured in a way that a change in the value of the relevant Underlying may result in a disproportionate change in the value of the Security (so-called leverage effect). The leverage effect of Securities can go **both** ways – i.e. not only to the investor's advantage in the case of a favourable, but also to the investor's disadvantage in the case of an unfavourable development of the price of the Underlying. **Such Securities are associated with a disproportionate risk of loss.**

- **Currency risks**

Potential investors encounter currency risks in particular in those cases where (i) the Underlying is denominated in a different currency than the Securities, (ii) the Securities are denominated in a different currency than the official currency of the purchaser's home country or (iii) the Securities are denominated in a different currency than the currency in which the purchaser receives payments.

Exchange rates are derived from the supply and demand in relation to currencies in the international foreign exchange markets. They are influenced by various economic factors, speculative investments and by measures undertaken by governments and central banks (e.g. foreign exchange controls and restrictions). Exchange rate fluctuations may result in a decrease of the value of the Securities and the amount possibly to be claimed.

- **Termination, early redemption and adjustment rights**

The Issuer shall be entitled to perform adjustments with regard to the Terms and Conditions or to terminate and redeem the Securities prematurely if certain conditions are met. This may have a negative effect on the value of the Securities as well as the Termination Amount. If the Securities are terminated, the amount payable to the holders of the Securities in the event of the termination of the Securities may be lower than the amount the holders of the Securities would have received without such termination.

- **Market disruption event**

The Issuer is entitled to determine market disruption events that might result in a postponement of a calculation and/or of any attainments under the Securities and that might affect the value of the Securities. In addition, in certain cases stipulated, the Issuer may estimate certain prices that are relevant with regard to attainments or the reaching of barriers. These estimates may deviate from their actual value.

- **Conflicts of interest**

The following conflicts of interest can arise in connection with the exercise of rights and/or obligations of the Issuer in accordance with the Terms and Conditions (e.g. in connection with the determination or adaptation of parameters of the terms and conditions), which affect the amounts payable:

- execution of transactions in the Underlying
- issuance of additional derivative instruments with regard to the Underlying
- business relationship with the Issuer of the Underlying
- possession of material (including non-public) information about the Underlying
- acting as Market Maker

- **Hedging risks**

The Issuer and its affiliates may hedge themselves against the financial risks associated with the issue of the Securities by performing hedging activities in relation to the relevant Underlying. Such activities in relation to the Securities may influence the market price of the Underlying to which the Securities relate. This will particularly be the case at the end of the term of the Securities. It cannot be ruled out that the conclusion and release of hedging positions may have a negative influence on the value of the Securities or payments to which the holder of the Securities is entitled.

In addition, investors may not be able to enter into hedging transactions that exclude or limit their risks in connection with the purchase of the Securities. The possibility to enter into such hedging transactions depends on market conditions and the respective Underlying terms and conditions.

- **Interest rate and inflationary risks**

The market for the Securities is influenced by the economic and market conditions, interest rates, exchange rates and inflation rates in Europe and other countries and regions. In addition, this may have negative consequences for the value of the Securities. Events in Europe and in other parts of the world can lead to higher market volatility and thus have an adverse effect on the value of the Securities.

- **Taxes and other duties**

All taxes or other duties payable at the level of the Issuer or the holders of the Securities on payments made in relation to the Securities are to be borne by the holders of the Securities. The Issuer will not pay any additional amounts to the holders of the Securities on account of any such taxes or duties.

The Issuer and other financial institutions through which payments on the Securities are made may be required to withhold at a rate of up to 30% on payments made after 31 December 2016 in respect of any Securities which are issued or materially modified after 31 December 2013, pursuant to Sections 1471 to 1474 of the U.S. Internal Revenue Code, commonly referred to as "**FATCA**" (Foreign Account Tax Compliance Act). A withholding obligation may also exist – irrespective of the date of issuance – if the Securities are to be treated as equity instruments according to U.S. tax law. The FATCA regulations outlined above are not yet final. **Investors in the Securities should therefore be aware of the fact that payments under the Securities may, under certain circumstances, be subject to U.S. withholding, which may lower the economic result of the Security.**

- **Securities are unsecured obligations (Status)**

The Securities are unsecured obligations (*Status*): The obligations under the Securities constitute direct, unconditional and unsecured (*nicht dinglich besichert*) obligations of the Issuer and, unless otherwise provided by applicable law, rank at least *pari passu* with all other unsubordinated and unsecured (*nicht dinglich besichert*) obligations of the Issuer. They are neither secured by the Deposit Protection Fund of the Association of German Banks (*Einlagensicherungsfonds des Bundesverbandes deutscher Banken e.V.*) nor by the German Deposit Guarantee and Investor Compensation Act (*Einlagensicherungs- und Anlegerentschädigungsgesetz*).

The Issuer may enter into hedging transactions in the relevant Underlying, but is under no obligation to do so. If hedging transactions are entered into, they shall exclusively inure to the benefit of the Issuer, and the investors shall have no entitlement whatsoever to the Underlying or with respect to the hedging transaction. Hedging transactions entered into by the Issuer shall not give rise to any legal relationship between the investors and those responsible for the Underlying.

In addition, the Securities do not give rise to any payment or other claims towards the issuers of the Underlyings to which the Securities relate. If the payment by the Issuer are less than the purchase price paid by the holder of the Securities, such holder will not have recourse to the issuer of the Underlying.

**Risks relating to the Issuer**

The investor bears the risk that the Issuers financial situation may worsen - and that the Issuer may be subjected to a reorganisation proceeding (*Reorganisationsverfahren*) or transfer order (*Übertragungsanordnung*) under German bank restructuring law or that insolvency proceedings might be instituted with regard to its assets - and therefore attainments due under the Securities can not or only partially be done. **Under these circumstances, a total loss of the investor's capital might be possible.**

If the conditions set out in the Terms and Conditions are met, the Issuer is entitled at any time, without the consent of the holders of the Securities, to appoint another company as the new Issuer with regard to all obligations arising out of or in connection with the Securities in its place. In that case, the holder of the Securities will generally also assume the insolvency risk with regard to the new Issuer.

**Risks relating to the Underlying**

The Securities depend on the value of the Underlying and the risk associated with this Underlying. In case of a continuing loss in the price of the Underlying of the Securities, the probability increases that the Securities will be redeemed at an amount which will be less than the purchase price paid for the Securities. Due to the limited term of the Securities, the Securityholder should not rely on any recovery of the price of an Underlying in time before the valuation date. This means that the Securities will possibly be redeemed at an amount which is less than the purchase price paid. As a result, the Securityholder could suffer a significant or total loss with respect to the purchase price paid.

The performance of an Underlying is in turn subject to a series of factors beyond the Issuer's control. Such factors are influenced to a significant degree by the risks on the share, debt and foreign exchange markets, the interest rate development, the volatility of the Underlying as well as economic, political and regulatory risks, and/or a combination of the aforesaid risks. The secondary market for Securities will be affected by a number of additional factors, irrespective of the creditworthiness of the Issuer and the value of the respective Underlying. These include, without limitation, the volatility of the relevant Underlying, as well as the remaining term and the outstanding volume of the respective Security.

**Underlying index (price index)**

Securities relating to an index involve, in particular, the following risks:

The index referred to as Underlying is a price index. Unlike in the case of performance indices, dividend distributions in relation to the shares contained in price indices will result in a reduction of the index level. This means that investors will not participate in dividends or other distributions in relation to shares contained in price indices.

*No influence of the Issuer*

As a general rule, the Issuer has no influence on the composition and performance of an index underlying the Securities or the performance of the relevant index components, unless the Issuer and the index sponsor are identical.

*Dependency on the value of the index components*

The value of an index is calculated on the basis of the value of its components. Changes in the prices of index components, the composition of an index as well as factors that (may) influence the value of the index components also influence the value of the Securities that relate to the relevant index and can thus influence the yield from an investment in the relevant Securities. Fluctuations in the value of one index component may be compensated or aggravated by fluctuations in the value of other index components. The past performance of an index does not represent any guarantee of its future performance. Under certain circumstances, an index used as an Underlying may (i) not be available for the full term of the Securities, (ii) be substituted or (iii) continue to be calculated by the Issuer itself. In these or other cases mentioned in the Terms and Conditions, Securities may also be terminated by the Issuer.

The Index underlying the Securities may reflect the performance of assets of some countries or some industries only. In that case, investors are exposed to a concentration risk. In the event of an unfavourable economic development in a country or in relation to a particular industry, investors may be adversely affected. If several countries or industries are represented in the index, it is possible that these countries or the industries are weighted unevenly. This means that, in the event of an unfavourable development in one country or industry with a high index weighting, the value of the index may be affected disproportionately by this adverse development.

Investors should note that the selection of an index is not based on the expectations or estimates of the Issuer in respect of the future performance of the selected index. Investors should therefore make their own estimates in respect of the future performance of an index on the basis of their own knowledge and sources of information.

*No liability of the index sponsor*

The index is composed and calculated by the respective index sponsor without taking into account the interests of the Issuer or the holders of the Securities. The index sponsors do not assume any obligation or liability in respect of the issue, sale and/or trading of the Securities.

*Index composition publication*

The composition of the indices may have to be published on a website or in other media mentioned in the terms and conditions of the relevant index. The publication of the updated composition of the respective index on the website of the relevant index sponsor might, however, be delayed considerably, sometimes even by several months. In those cases, the published composition may not always correspond to the actual composition of the relevant index.

**Underlying fund share**

Securities that are linked to a fund involve, in particular, the following risks:

*Fees*

The performance of a fund is in part influenced by the fees that are directly or indirectly charged to the fund assets.

The following fees (without limitation) can be regarded as fees directly charged to the fund assets: fund management fees (including fees in respect of administrative tasks), depositary bank fees, standard bank deposit charges, possibly including the standard bank charges for holding foreign securities abroad, printing and distribution costs in relation to the annual and semi-annual reports aimed at investors, auditors' fees for auditing the fund, distribution costs, etc. Additional fees and expenses may arise due to the contracting of third parties for services in connection with the management of the fund or the calculation of performance-based portfolio management fees.

In addition to the fees that are directly charged to the fund assets, the fees that are indirectly charged to the fund assets also have a negative effect on the performance of the fund. These indirect fees include (without limitation) management fees that are charged to the fund for investment units held in the fund assets.

*Market risk*

As price or value reductions in relation to the securities purchased by the fund or other investments are also reflected in the prices of the individual fund units, there is a general risk of falling unit prices. Even if the fund's investments are much diversified, there is a risk that an adverse overall development in certain markets or exchanges can cause unit prices to fall.

*Illiquid Investments*

Funds may invest in assets which are illiquid or subject to a minimum holding period. Therefore, it may be difficult for the fund to sell these assets at all or at a reasonable price when it is required to sell them to generate liquidity. In particular, this can be the case if investors wish to redeem their fund

units. The fund may suffer substantial losses if it is forced to sell illiquid assets in order to redeem fund units or if the sale of illiquid assets is only possible at a low price. This may negatively affect the value of the fund and, thus, the value of the Securities.

Investments in illiquid assets may also lead to difficulties in calculating the net asset value of the fund (see below). This, in turn, can result in delays with regard to payments in connection with the Securities.

#### *Delayed NAV publication*

Under certain circumstances, the publication of a fund's net asset value may be delayed. This may result in a delayed redemption of the Security and, e.g. in the case of a negative market development, have a negative effect on the value of the Security. In addition, investors bear the risk that, in the case of a delayed redemption of the Securities, their reinvestment of the relevant proceeds may be subject to delays and possibly unfavourable terms.

#### *Dissolution of a fund*

It cannot be ruled out that a fund may be dissolved during the term of the Securities. In that case, the Issuer or the Calculation Agent will normally be entitled to perform adjustments with regard to the Securities in accordance with the relevant terms and conditions. Such adjustments may, in particular, provide for the substitution of the relevant fund by another fund. In addition, the Security may also be terminated early by the Issuer in that case.

#### *Postponement or suspension of redemptions*

The fund may redeem no or only a limited quantity of units at the scheduled times that are relevant for the calculation of the Redemption Amount of the Securities. This can result in a delayed redemption of the Securities if such a delay is provided for in the terms and conditions in the event that the termination of the hedge transactions concluded by the Issuer at the time of the issue of the Securities is delayed. In addition, such a scenario may negatively affect the value of the Securities.

#### *Concentration on certain countries, industries or investment classes*

The fund may concentrate its investments on assets relating to certain countries, industries or asset classes. This may lead to price fluctuations in relation to the fund that are higher and occur within a shorter period of time than would be the case if the risks were more diversified between industries, regions and countries.

#### *Currency risks*

The Securities may be linked to funds which are denominated in another currency than the currency in which the Securities are denominated or to funds which invest in assets that are denominated in another currency than the Securities. Investors may therefore be subject to a significant currency risk.

#### *Markets with limited certainty of law*

Funds that invest in markets with limited certainty of law are subject to certain risks such as, for instance, unexpected government interventions, which may lead to a reduced fund value. The realisation of such risks may also result in a total or partial loss of the invested capital for the holder of the Securities that are linked to such a fund.

#### *Effects of regulatory framework conditions*

Funds might not be subject to any regulation or may invest in investment vehicles which are not subject to any regulation. Conversely, the introduction of regulation of a previously unregulated fund may create significant disadvantages for such funds.

*Dependency on asset managers*

The performance of the fund will depend on the performance of the assets selected by the fund's asset manager for the purposes of implementing the relevant investment strategy. In practice, the performance of a fund largely depends on the competence of the managers taking investment decisions. The resignation or substitution of such persons may lead to losses and/or the dissolution of the relevant fund.

The investment strategies, restrictions and objectives of funds can provide an asset manager with significant room for manoeuvre when investing the relevant assets, and there is no guarantee that the asset manager's investment decisions will result in profits or provide efficient protection from market or other risks. There is no guarantee that a fund will succeed in implementing the investment strategy detailed in its sales documentation. This means that, even if the performance of a fund with similar investment strategies is favourable, a fund (and thus the Securities) may undergo a negative performance.

*Particular risks in relation to exchange traded funds*

If the Securities relate to units in an exchange traded fund ("**ETF**"), the particular risks set out below may occur, which may have a negative effect on the value of the underlying ETF units and, thus, the value of the Securities themselves.

ETFs pursue the objective of tracking, as accurately as possible, the performance of an index, basket or particular individual assets. Thus, the value of an ETF is particularly dependent upon the performance of the individual index or basket components and/or assets. However, it cannot be ruled out that the performance of the ETF does not correspond to that of the index, basket or individual asset (so-called "tracking error").

Unlike other investment funds, there is generally no active management of ETFs by the issuing investment company. This means that decisions regarding the purchase of assets are dictated by the index, basket or individual assets. If the value of the underlying index falls, this may thus result in an unlimited price loss risk in relation to the ETF, which may have a negative effect on the value of the Securities.

*Dependency on the value of the index components*

ETFs pursue the objective of tracking, as accurately as possible, the performance of an index, basket or particular individual assets. Thus, the value of an ETF is particularly dependent upon the performance of the individual index or basket components and/or assets. However, it cannot be ruled out that the performance of the ETF does not correspond to that of the index, basket or individual asset (so-called "tracking error").

Unlike other investment funds, there is generally no active management of ETFs by the issuing investment company. This means that decisions regarding the purchase of assets are dictated by the index, basket or individual assets. If the value of the underlying index, basket or individual assets falls, this may thus result in an unlimited price loss risk in relation to the ETF, which may have a negative effect on the value of the Securities.

*Usage of derivative financial instruments*

ETFs whose performance is linked to an index or a basket will often invest in securities not contained in that index or basket, derivative financial instruments and techniques will be used in order to link the value of the units to the performance of the relevant index or basket. The use of such derivative financial instruments and techniques involves risks for the fund that, in some cases, can be greater than the risks associated with traditional forms of investment. In addition, losses may be incurred because of the fact that the counterparty to a transaction defaults through the use of derivatives, e.g. in the case of OTC swap transactions.

*Liquidation risks in case of collaterals*

Any collateral provided to the investment company issuing the ETFs by counterparties in connection with securities lending, repurchase and OTC transactions in order to minimise credit risk is subject to the statutory and regulatory provisions. It cannot be ruled out that individual items of collateral may be worthless at, and/or rendered completely worthless prior to, the time of their utilisation. Therefore, there is a risk of a total loss in respect to the ETF share and that investors therefore could suffer a total loss in respect of their Securities.

*Risk of a replacement of the index*

Under certain circumstances, the calculation or publication of the index which will be replicated by the ETF could be suspended or even terminated. Furthermore, the index components or basket components could be changed or replaced by another index or basket

*Particular risks in relation to property funds*

If the Securities relate to fund units in a property fund, the particular risks set out below may occur, which may have a negative effect on the value of the underlying fund units and, thus, the value of the Securities themselves.

Property investments are subject to risks that may affect the value of the fund units in the event of changes in the yields, expenses and the fair market value of the relevant properties. The same applies to properties held by property developers. Risks may arise from (without limitation) vacant properties, lost rents, unforeseen maintenance expenses or building cost increases, risks in relation to third-party warranty claims, risks in connection with existing contamination and the defaulting of contracting parties. If a property fund acquires an interest in a property development company, this may give rise to risks in relation to the company's legal form as well as in connection with a possible defaulting of shareholders/partners or changes in the tax and corporate frameworks. In the event of properties abroad, additional risks may arise from, for instance, deviating laws and tax rules. Currency and transfer risks might also apply in this regard.

Unlike with other investment funds, the redemption of the units in a property fund may be suspended by up to two years if the fund's available funds, in the case of a large number of redemption requests, are insufficient as to cover the payment of the redemption price and to safeguard proper management or cannot be provided at short notice. This may result in a delay in the redemption of the Securities. In addition, such a scenario may negatively affect the value of the Securities because the redemption price paid by the property fund, following continued redemption, may be lower than prior to the suspension.

## GENERAL INFORMATION

This document contains the terms and conditions of the Securities described herein as well as selected risk factors associated with the purchase of the Securities. This document does not constitute a Prospectus or Final Terms pursuant to Article 5 (4) of Directive 2003/71/EC, as amended, and will not be filed with any competent authority.

**Prospective purchasers of the Securities are advised to seek their own advice (including tax consultants and account holding bank) before reaching an investment decision.**

## TERMS AND CONDITIONS

### § 1 FORM

1. The issue by Commerzbank Aktiengesellschaft, Frankfurt am Main, Federal Republic of Germany (the "**Issuer**") of structured certificates (the "**Certificates**") will be in dematerialised form and will only be evidenced by book entries in the system of Euroclear Finland Oy, PL 1110, Urho Kekkosen katu 5C, 00101 Helsinki, Finland ("**EFi**") for registration of securities and settlement of securities transactions (the "**Clearing System**") in accordance with the Finnish Act on Book-Entry System (1991/826) to the effect that there will be no certificated securities. The Certificates are issued in Euro ("**EUR**") (the "**Issue Currency**"). There will be neither global bearer securities nor definitive securities and no physical certificates will be issued with respect to the Certificates.
2. Registration requests relating to the Certificates shall be directed to an account operating institute.
3. Transfers of Certificates and other registration measures shall be made in accordance with the Finnish Act on Book-Entry Accounts (1991/827) as well as the regulations, rules and operating procedures applicable to and/or issued by EFi. The Issuer is entitled to receive from EFi, at its request, a transcript of the register for the Certificates.
4. The Issuer reserves the right to issue from time to time without the consent of the Certificateholders additional tranches of Certificates with substantially identical terms, so that the same shall be consolidated to form a single series and increase the total volume of the Certificates. The term "Certificates" shall, in the event of such consolidation, also comprise such additionally issued Certificates.

"**Certificateholder**" means any person that is registered in a book-entry account managed by the account operator as holder of a Certificate. For nominee registered Certificates the authorised custodial nominee account holder shall be considered to be the Certificateholder.

### § 2 DEFINITIONS

For the purposes of these Terms and Conditions, the following definitions shall apply (subject to an adjustment in accordance with § 6):

"**Adjustment Event**" with respect to an Index means:

- (a) the substitution of the Index by a Successor Index pursuant to § 6 (B) paragraph 2;
- (b) any of the following actions taken by the relevant Index Company: capital increases through issuance of new shares against capital contribution and issuance of subscription rights to the shareholders, capital increases out of the Index Company's reserves, issuance of securities with option or conversion rights related to the Index Share, distributions of ordinary dividends, distributions of extraordinary dividends, stock splits or any other split, consolidation or alteration of category;
- (c) a spin-off of a part of the Index Company in such a way that a new independent entity is formed, or that the spun-off part of the Index Company is absorbed by another entity;
- (d) the adjustment of option or futures contracts relating to the Index Share on the Futures Exchange or the announcement of such adjustment;
- (e) a takeover-bid, i.e. an offer to take over or to swap or any other offer or any other act of an individual person or a legal entity that results in the individual person or legal entity buying, otherwise acquiring or obtaining a right to buy more than 10% of the outstanding

shares of the Index Company as a consequence of a conversion or otherwise, as determined by the Issuer in its reasonable discretion (*billiges Ermessen*) (§ 315 German Civil Code (*BGB*)) based on notifications to the competent authorities or on other information determined as relevant by the Issuer;

- (f) the termination of trading in, or early settlement of, option or futures contracts relating to the Index Share on the Futures Exchange or relating to the Index itself or the announcement of such termination or early settlement;
- (g) the termination of the listing of the Index Share at the exchange on which the respective Index Share is traded (provided that the quotations of the prices of the Index Share on such exchange are taken for the calculation of the Index) (the "**Relevant Exchange**") to terminate the listing of the Index Share on the Relevant Exchange due to a merger by absorption or by creation or any other reason or the becoming known of the intention of the Index Company or the announcement of the Relevant Exchange that the listing of the Index Share at the Relevant Exchange will terminate immediately or at a later date and that the Index Share will not be admitted, traded or listed at any other exchange which is comparable to the Relevant Exchange (including the exchange segment, if applicable) immediately following the termination of the listing;
- (h) a procedure is introduced or ongoing pursuant to which all shares or the substantial assets of the Index Company are or are liable to be nationalized or expropriated or otherwise transferred to public agencies, authorities or organizations;
- (i) the application for insolvency proceedings or for comparable proceedings with regard to the assets of a Index Company according to the applicable law of such company; or
- (j) any other event being economically equivalent to the afore-mentioned events with regard to their effects.

"**Averaging Date**" means each of the following dates, subject to postponement in accordance with the following provisions:

07 March 2017, 07 April 2017, 08 May 2017, 07 June 2017, 07 July 2017, 07 August 2017, 07 September 2017, 11 October 2017, 07 November 2017, 07 December 2017, 08 January 2018, 07 February 2018 and 07 March 2018 (the "**Final Averaging Date**").

If an Averaging Date is not a Fund Business Day with respect to an ETF Share, then the relevant Averaging Date for such ETF Share shall be postponed to the next calendar day which is a Fund Business Day.

If on an Averaging Date the Reference Price of an Underlying is not determined and published or if on an Averaging Date a Market Disruption Event with respect to an Underlying occurs, then the next following day which is not already an Averaging Date and on which the Reference Price of such Underlying is determined and published again and on which a Market Disruption Event with respect to such Underlying does not occur will be deemed to be the relevant Averaging Date for such Underlying.

If, according to the before-mentioned, the Final Averaging Date with respect to an Underlying is postponed until the eighth Payment Business Day prior to the Maturity Date, and if also on such day the Reference Price of such Underlying is not determined and published or a Market Disruption Event with respect to such Underlying occurs on such day, then this day shall be deemed to be the Final Averaging Date for such Underlying and the Issuer shall estimate the Reference Price of such Underlying in its reasonable discretion (*billiges Ermessen*) (§ 315 German Civil Code (*BGB*)), and in consideration of the prevailing market conditions on such day and make notification thereof in accordance with § 11.

"**Basket Performance**" means a decimal number calculated by applying the following formula:

$$BP = \frac{1}{6} \times \sum_{i=1}^6 \left( \frac{\text{Underlying}_{i,\text{FINAL}} - \text{Underlying}_{i,\text{INITIAL}}}{\text{Underlying}_{i,\text{INITIAL}}} \right)$$

where:

BP = Basket Performance

$\text{Underlying}_{i,\text{FINAL}} = \frac{1}{13} \times \sum_{t=1}^{13} S_{i,t} \times \text{FX}_{i,t}$

$\text{Underlying}_{i,\text{INITIAL}} = S_{i,0} \times \text{FX}_{i,0}$

$S_{i,t}$  = Reference Price of the relevant Underlying (i) with respect to the relevant Averaging Date (t)

$S_{i,0}$  = Initial Price of the relevant Underlying (i)

$\text{FX}_{i,t}$  = Conversion Rate of the relevant Underlying (i) with respect to the relevant Averaging Date (t)

$\text{FX}_{i,0}$  = Conversion Rate of the relevant Underlying (i) with respect to the Strike Date

"**Compulsory Redemption**" with respect to an ETF Share means the compulsory redemption or transfer of the relevant ETF Share as described in the respective Memorandum.

"**Conversion Rate**" means

- with respect to the Hang Seng Index (HSI), the Hang Seng China Enterprises Index (HSCEI) and the iShares FTSE A50 China Index ETF: a conversion rate for HKD 1 in EUR based on the mid exchange reference rate expressed in EUR as published with respect to an Averaging Date or the Strike Date, as the case may be, on Bloomberg screen page HKDEUR Curncy at or about 2:15 p.m. (Frankfurt am Main time).

- with respect to the Market Vectors® Vietnam ETF: a conversion rate for USD 1 in EUR based on the mid exchange reference rate expressed in EUR as published with respect to an Averaging Date or the Strike Date, as the case may be, on Bloomberg screen page USDEUR Curncy at or about 2:15 p.m. (Frankfurt am Main time).

- with respect to the TWSE Capitalization Weighted Stock Index (TAIEX): a conversion rate for TWD 1 in EUR based on the mid exchange reference rate expressed in EUR as published with respect to an Averaging Date or the Strike Date, as the case may be, on Bloomberg screen page TWDEUR Curncy at or about 2:15 p.m. (Frankfurt am Main time).

- with respect to the KOSPI 200 Index: a conversion rate for KRW 1 in EUR based on the mid exchange reference rate expressed in EUR as published with respect to an Averaging Date or the Strike Date, as the case may be, on Bloomberg screen page KRWEUR Curncy at or about 2:15 p.m. (Frankfurt am Main time).

If any of the above exchange reference rates ceases to be published on the relevant Bloomberg screen page and is published on another screen page, then the relevant Conversion Rate shall be based on the relevant exchange reference rate as published on such other page (the "**Successor Page**"). The Issuer will give notification of such Successor Page in accordance with § 11.

If any of the above exchange reference rates is not published on an Averaging Date or the Strike Date, as the case may be, on the relevant Bloomberg screen page or on a Successor Page and if the Issuer has not determined another exchange reference rate as the relevant basis for the Conversion Rate, then the relevant Conversion Rate shall be the exchange reference rate for one unit of the relevant currency in EUR expressed in EUR determined by the Issuer as actually traded on the *International Interbank Spot Market* on an Averaging Date or the Strike Date, as the case may be, at or about 2:15 p.m. (Frankfurt am Main time).

"**Extraordinary Event**" with respect to an ETF Share means any of the following events:

- (a) the implementation of any change to the terms and conditions of the Fund Company, as notified by the Fund Management, which, in the reasonable discretion (*billiges Ermessen*) (§ 315 German Civil Code (*BGB*)) of the Issuer, is of a material nature including but not limited to such changes as (i) a change in the risk profile of the Fund Company and/or the ETF Share; (ii) a change in the voting rights, if any, associated with the voting shares of the ETF Share; (iii) an alteration to the investment objectives of the Fund Company including the replacement of the ETF Index; or (iv) a change in the currency in which the ETF Shares are denominated so that the NAV is quoted in a different currency from that in which it was quoted on the Trade Date;

- (b) the breach of the investment objectives of the ETF Share (as defined in the Memorandum) if such breach, in the reasonable discretion (*billiges Ermessen*) (§ 315 German Civil Code (*BGB*)) of the Issuer, is of a material nature;
- (c) the imposition or increase of subscription and/or redemption fees, or taxes or other similar fees, payable in respect of a purchase or redemption of the ETF Share after the Trade Date;
- (d) if the Fund Management fails for reasons other than of a technical or operational nature, to calculate the NAV for five consecutive Exchange Business Days;
- (e) if the activities of the Fund and/or the Fund Management are placed under review by their regulators for reasons of wrongdoing, breach of any rule or regulation or other similar reason;
- (f) the Compulsory Redemption of the ETF Share by the Fund for any reason prior to the Exercise Date;
- (g) if the issue of additional shares of the ETF Share or the redemption of existing ETF Shares is suspended and if any such suspension continues for five consecutive Exchange Business Days;
- (h) the winding-up or termination of the Fund and/or the ETF Share for any reason prior to the Exercise Date;
- (j) if the ETF Share is superseded by a Successor Fund following a merger or similar event unless, in the reasonable discretion (*billiges Ermessen*) (§ 315 German Civil Code (*BGB*)) of the Issuer, the Successor has similar investment objectives to those of the ETF Share, is incorporated in the same jurisdiction as the Fund (or another jurisdiction acceptable to the Issuer), is denominated in the same currency as the Fund and is managed and administered by one or more individuals who, or corporate entities which, are reputable and experienced in their field;
- (k) the cancellation of the registration, or of the approval, of the Fund and/or the ETF Share and/or the Fund Management by any relevant authority or body;
- (l) the replacement of the Fund Management by the Fund unless, in the reasonable discretion (*billiges Ermessen*) (§ 315 German Civil Code (*BGB*)) of the Issuer, the relevant replacement is an individual or group of individuals who, or a corporate entity which, is reputable and experienced in their field;
- (m) any change in the accounting, regulatory or tax treatment applicable with respect to the Fund which could have an economic impact for the Issuer, its affiliates or any other designated hedging entity;
- (n) the cessation of the calculation and publication of the ETF Index by the ETF Index Sponsor;
- (o) the termination of the listing of the ETF Share on the Exchange due to a merger by absorption or by creation or due to any other reasons, or the becoming known of the intention of the Fund Company or the announcement of the Exchange that the listing of the ETF Share at the Exchange will terminate immediately or at a later date and that the ETF Share will not be admitted, traded or listed at any other exchange which is comparable to the Exchange (including the exchange segment, if applicable) immediately following the termination of the listing;
- (p) the Issuer and/or its affiliates (in the meaning of § 1 paragraph 7 German Banking Act (*KWG*), § 290 paragraph 2 German Commercial Law (*HGB*)) are, even following economically reasonable efforts, not in the position (i) to enter, re-enter, replace, maintain, liquidate, acquire or dispose of any transactions or investments that the Issuer considers necessary to hedge its risks resulting from the assumption and performance of its obligations under the Certificates or (ii) to realize, regain or transfer the proceeds resulting from such transactions or investments;

- (q) a procedure is introduced or ongoing pursuant to which all shares or the substantial assets of the Fund Company are or are liable to be nationalized or expropriated or otherwise transferred to public agencies, authorities or organizations;
- (r) the application for insolvency proceedings or for comparable proceedings with regard to the assets of the Fund Company according to the applicable law of the Fund Company; or
- (s) any other event being economically equivalent to the before-mentioned events with regard to their effects.

**"Fund"** or **"Fund Company"** with respect to an ETF Share means the fund company, consisting of separate investment portfolios (each a **"Sub-Fund"**), as more fully described in the respective Memorandum, as specified in the table in the definition of "ETF Share".

**"Futures Exchange"** with respect to an ETF Share means the exchange with the largest trading volume in futures and options contracts in relation to such ETF Share. If no futures or options contracts in relation to the ETF Share are traded on any exchange, the Futures Exchange shall be the exchange with the largest trading volume in futures and options contracts in relation to shares of companies whose registered office is in the same country as the registered office of the Fund Company. If there is no futures and options exchange in the country in which the Fund Company has its registered office on which futures and options contracts in relation to the ETF Share are traded, the Issuer shall determine the Futures Exchange in its reasonable discretion (*billiges Ermessen*) (§ 315 German Civil Code (*BGB*)) and shall announce its choice in accordance with § 11.

**"Futures Exchange"** with respect to an Index means the exchange with the largest trading volume in futures and options contracts in relation to an Index Share. If no futures or options contracts in relation to the Index Share are traded on any exchange, the Futures Exchange shall be the exchange with the largest trading volume in futures and options contracts in relation to shares of companies whose registered office is in the same country as the registered office of the Index Company. If there is no futures and options exchange in the country in which the Index Company has its registered office on which futures and options contracts in relation to the Index Share are traded, the Issuer shall determine the Futures Exchange in its reasonable discretion (*billiges Ermessen*) (§ 315 German Civil Code (*BGB*)) and shall announce its choice in accordance with § 11.

**"Hedging Disruption"** means an event due to which the Issuer and/or its affiliates (in the meaning of § 1 paragraph 7 German Banking Act (KWG), § 290 paragraph 2 German Commercial Law (HGB)) are, even following economically reasonable efforts, not in the position (i) to enter, re-enter, replace, maintain, liquidate, acquire or dispose of any transactions or investments that the Issuer considers necessary to hedge its risks resulting from the assumption and performance of its obligations under the Certificates or (ii) to realize, regain or transfer the proceeds resulting from such transactions or investments.

**"HKD"** means Hong Kong Dollar.

"Index" means any of the following indices as determined and published by the respective Index Sponsor:

<b>Index</b>	<b>Bloomberg ticker</b>	<b>Initial Price</b>

"Market Disruption Event" means

- with respect to an ETF Share the occurrence or existence of any suspension of, or limitation imposed on, trading in (a) the ETF Share on the Exchange, or (b) any option or futures contracts relating to the ETF Share on the Futures Exchange (if such option or futures contracts are traded on the Futures Exchange), provided that any such suspension or limitation is material. The decision whether a suspension or limitation is material will be made by the Issuer in its reasonable discretion (*billiges Ermessen*) (§ 315 German Civil Code (*BGB*)). The occurrence of a Market Disruption Event on an Averaging Date shall be published in accordance with § 11.

A limitation regarding the office hours or the number of days of trading will not constitute a Market Disruption Event if it results from an announced change in the regular business hours of the respective exchange. A limitation on trading imposed during the course of a day by reason of movements in price exceeding permitted limits shall only be deemed to be a Market Disruption Event in the case that such limitation is still prevailing at the time of termination of the trading hours on such date.

- with respect to an Index the occurrence or existence of any suspension of, or limitation imposed on, trading in any of the Index Shares on the exchange or the suspension of or limitation imposed on trading in options or futures contracts on the Index on the options and futures exchange with the highest trading volume of option and future contracts relating to the Index, provided that any such suspension or limitation is material. The decision whether a suspension or limitation is material will be made by the Issuer in its reasonable discretion (*billiges Ermessen*) (§ 315 German Civil Code (*BGB*)). The occurrence of a Market Disruption Event on an Averaging Date shall be published in accordance with § 11.

A limitation regarding the office hours or the number of days of trading will not constitute a Market Disruption Event if it results from an announced change in the regular business hours of the relevant exchange. A limitation on trading imposed during the course of a day by reason of movements in price exceeding permitted limits shall only be deemed to be a Market Disruption Event in the case that such limitation is still prevailing at the time of termination of the trading hours on such date.

"**Maturity Date**" means 21 March 2018, subject to postponement in accordance with § 5 paragraph 2.

### § 3 MATURITY

1. Subject to the provisions contained in § 4, each Certificate will be redeemed on the Maturity Date by the payment of an amount in the Issue Currency (the "**Redemption Amount**").
2. The Redemption Amount shall be determined by the Issuer in accordance with the following provisions:

$$RA = EA \times PF \times \text{Max} (0; BP)$$

where:

RA	=	Redemption Amount per Certificate (rounded, if necessary, to the next full EUR 0.01 (EUR 0.005 will be rounded up))
EA	=	Exposure Amount
PF	=	Participation Factor
BP	=	Basket Performance

**§ 4**  
**EARLY REDEMPTION; REPURCHASE**

1. Except as provided in § 6, the Issuer shall not be entitled to redeem the Certificates prior to the Maturity Date.
2. The Certificateholders shall not be entitled to call for redemption of the Certificates prior to the Maturity Date.
3. The Certificates shall not be terminated automatically and redeemed prior to the Maturity Date.
4. The Issuer may at any time purchase Certificates in the market or otherwise. Certificates repurchased by or on behalf of the Issuer may be held by the Issuer, re-issued or resold.

**§ 5**  
**PAYMENTS**

1. All amounts payable pursuant to these Terms and Conditions shall be made to the Paying Agent subject to the provision that the Paying Agent transfers such amounts to the Clearing System on the dates stated in these Terms and Conditions so that they may be credited to the accounts of the relevant custodian banks and then forwarded on to the Certificateholders.
2. If any payment with respect to a Certificate is to be effected on a day other than a Payment Business Day, payment shall be effected on the next following Payment Business Day. In this case, the relevant Certificateholder shall neither be entitled to any payment claim nor to any interest claim or other compensation with respect to such delay.
3. All payments are subject in all cases to any applicable fiscal or other laws, regulations and directives.

**§ 6**  
**ADJUSTMENTS; TERMINATION RIGHT OF THE ISSUER**

(A) IN RELATION TO AN ETF SHARE

1. If an Extraordinary Event has a material effect on the price of the ETF Share, the Issuer will make adjustments to the Terms and Conditions taking into consideration the provisions set forth hereinafter. If an Extraordinary Event has occurred, the Issuer may (instead of such an adjustment) optionally terminate the Certificates prematurely with respect to an Exchange Business Day (the "**Termination Date**") taking into consideration the provisions set forth hereinafter with a prior notice of seven Payment Business Days in accordance with § 11. Any termination of the Certificates in part shall be excluded.
  - (a) Adjustments to the Terms and Conditions shall be performed by the Issuer in its reasonable discretion (*billiges Ermessen*) (§ 315 German Civil Code (*BGB*)).

As a result of such adjustments especially the Initial Price may be amended. The adjustments may also result in the ETF Share being replaced by another ETF share or other securities, a basket of securities and/or cash, and another stock exchange being determined as the Exchange. If the ETF Share will be replaced, the Issuer will identify an alternative fund in substitution for the ETF Share (the "**Successor Fund**"). The Successor Fund shall be a fund which (i) is denominated in the same currency as the ETF Share, (ii) has the same or similar characteristics and features as the ETF Share and (iii) has similar investment objectives and policies to those of the ETF Share immediately prior to the occurrence of the Extraordinary Event. Any reference made to the ETF Share in these Terms and Conditions shall be deemed as a reference to the Successor Fund, all calculations and determinations made by reference to the ETF Share shall be instead

made by reference to the Successor Fund, and the Issuer shall make amendments to all related terms accordingly on the basis of the Removal Value of the ETF Share.

Adjustments and determinations as well as the effective date shall be notified by the Issuer in accordance with § 11.

Any adjustment in accordance with this § 6 (A) paragraph 1 does not exclude a later termination in accordance with this paragraph on the basis of the same event.

2. If the Certificates are terminated pursuant to § 6 (A) paragraph 1 or the Certificates are called for redemption due to the occurrence of an Extraordinary Event or in case the Issuer is unable to identify a Successor Fund with respect to an ETF Share, as the case may be, the Certificates shall be redeemed on the Termination Date at the termination amount per Certificate (the "**Termination Amount**") which shall be calculated by the Issuer in its reasonable discretion (*billiges Ermessen*) (§ 315 German Civil Code (*BGB*)) by taking into account prevailing market conditions and any proceeds realised by the Issuer in connection with transactions concluded by it in its reasonable discretion (*billiges Ermessen*) (§ 315 German Civil Code (*BGB*)) for hedging measures in relation to the assumption and fulfilment of its obligations under the Certificates (the "**Hedging Transactions**"). Expenses for transactions that were required for winding up the Hedging Transactions will be taken into account as deductible items.

The Issuer shall pay the Termination Amount to the Certificateholders not later than the tenth Payment Business Day following the Termination Date to the Clearing System for crediting the accounts of the depositors of the Certificates with the Clearing System. The rights in connection with the Certificates shall expire upon the payment of the Termination Amount to the Clearing System.

3. The Issuer may also terminate the Certificates according to § 6 (A) paragraph 1 in the case of a takeover-bid, i.e. an offer to take over or to swap or any other offer or any other act of an individual person or a legal entity that results in the individual person or legal entity buying, otherwise acquiring or obtaining a right to buy more than 10% of the outstanding shares of the Fund Company as a consequence of a conversion or otherwise, all as determined by the Issuer based on notifications to the competent authorities or on other information determined as relevant by the Issuer.

#### (B) IN RELATION TO AN INDEX

1. If the Index is no longer calculated and published by the Index Sponsor but by another person, company or institution acceptable to the Issuer in its reasonable discretion (*billiges Ermessen*) (§ 315 German Civil Code (*BGB*)) as the new Index Sponsor (the "**Successor Sponsor**"), the Redemption Amount will be determined on the basis of the Index being calculated and published by the Successor Sponsor and any reference made to the Index Sponsor in these Terms and Conditions shall, if the context so admits, then refer to the Successor Sponsor.
2. If the Index is cancelled or replaced or if the Index Sponsor is replaced by another person, company or institution not acceptable to the Issuer in its reasonable discretion (*billiges Ermessen*) § 315 German Civil Code (*BGB*), the Issuer will determine in its reasonable discretion (*billiges Ermessen*) (§ 315 German Civil Code (*BGB*)) another index on the basis of which the Redemption Amount will be determined (the "**Successor Index**"). The Successor Index as well as the time of its first application will be notified pursuant to § 11. Any reference made to the Index in these Terms and Conditions shall, if the context so admits then refer to the Successor Index. All related definitions shall be deemed to be amended accordingly. Furthermore, the Issuer will make all necessary adjustments to the Terms and Conditions resulting from a substitution of the respective Index.
3. If the occurrence of an Adjustment Event with respect to an Index Share has a material effect on the price of the Index, the Issuer will make adjustments to the Terms and Conditions taking into consideration the provisions set forth hereinafter. The Issuer shall act in its reasonable discretion (*billiges Ermessen*) (§ 315 German Civil Code (*BGB*)).

As a result of such adjustments especially the Initial Price may be amended.

Such adjustment shall become effective on the date on which the occurrence of the Adjustment Event with respect to the Index Share has its effect on the price of the Index.

Adjustments and determinations as well as the effective date shall be notified by the Issuer in accordance with § 11.

Any adjustment in accordance with this § 6 (B) paragraph 3 does not exclude a later termination in accordance with this paragraph on the basis of the same event.

4. If (i) the determination of a Successor Index in accordance with § 6 (B) paragraph 2 is not possible or is unreasonable (*unzumutbar*) or (ii) if the Index Sponsor materially modifies the calculation method of the Index with effect on or after the Trade Date, or materially modifies the Index in any other way (except for modifications which are contemplated in the calculation method of the Index relating to a change with respect to Index Shares, the market capitalisation or with respect to any other routine measures), then the Issuer is entitled to (a) continue the calculation and publication of the Index on the basis of the former concept of the Index and its last determined level or (b) to terminate the Certificates prematurely with respect to a Payment Business Day (the "**Termination Date**") with a prior notice of seven Payment Business Days in accordance with § 11. Any termination in part shall be excluded.

The Issuer may also terminate the Certificates in accordance with the above in the case of a Hedging Disruption.

5. In the case of a termination of the Certificates pursuant to § 6 (B) paragraph 4, the Certificates shall be redeemed on the Termination Date at the termination amount per Certificate (the "**Termination Amount**") which shall be calculated by the Issuer in its reasonable discretion (*billiges Ermessen*) (§ 315 German Civil Code (*BGB*)) by taking into account applicable market conditions and any proceeds realised by the Issuer in connection with transactions concluded by it in its reasonable discretion (*billiges Ermessen*) (§ 315 German Civil Code (*BGB*)) for hedging measures in relation to the assumption and fulfilment of its obligations under the Certificates (the "**Hedging Transactions**"). Expenses for transactions that were required for winding up the Hedging Transactions will be taken into account as deductible items.

The Issuer shall pay the Termination Amount to the Certificateholders not later than the tenth Payment Business Day following the Termination Date to the Clearing System for crediting the accounts of the depositors of the Certificates with the Clearing System. The rights in connection with the Certificates shall expire upon the payment of the Termination Amount to the Clearing System.

## § 7 TAXES

All present and future taxes, fees or other duties in connection with the Certificates shall be borne and paid by the Certificateholders. The Issuer is entitled to withhold from payments to be made under the Certificates any taxes, fees and/or duties payable by the Certificateholder in accordance with the previous sentence.

## § 8 STATUS

The obligations under the Certificates constitute direct, unconditional and unsecured obligations of the Issuer and rank at least *pari passu* with all other unsecured and unsubordinated obligations of the Issuer (save for such exceptions as may exist from time to time under applicable law).

**§ 9**  
**PAYING AGENT**

1. Nordea Bank Finland Plc, a credit institution and account operator, incorporated under the laws of Finland, whose corporate seat and registered office is at Aleksis Kiven katu 3-5, Helsinki, FI-00020 NORDEA, Finland, shall be the issuer agent as defined in the regulation of Euroclear Finland and paying agent (the "**Paying Agent**").
2. The Issuer shall be entitled at any time to appoint another bank of international standing as Paying Agent. Such appointment and the effective date shall be notified in accordance with § 11.
3. The Paying Agent is hereby granted exemption from the restrictions of § 181 of the German Civil Code (BGB) and any similar restrictions of the applicable laws of any other country.

**§ 10**  
**SUBSTITUTION OF THE ISSUER**

1. Any other company may assume at any time during the life of the Certificates, subject to paragraph 2, without the Certificateholders' consent all the obligations of the Issuer under these Terms and Conditions. Any such substitution and the effective date shall be notified by the Issuer in accordance with § 11.

Upon any such substitution, such substitute company (hereinafter called the "**New Issuer**") shall succeed to, and be substituted for, and may exercise every right and power of, the Issuer under these Terms and Conditions with the same effect as if the New Issuer had been named as the Issuer herein; the Issuer (and, in the case of a repeated application of this § 10, each previous New Issuer) shall be released from its obligations hereunder and from its liability as obligor under the Certificates.

In the event of such substitution, any reference in these Terms and Conditions to the Issuer shall from then on be deemed to refer to the New Issuer.

2. No such assumption shall be permitted unless
  - (a) the New Issuer has agreed to assume all obligations of the Issuer under the Certificates pursuant to these Terms and Conditions;
  - (b) the New Issuer has agreed to indemnify and hold harmless each Certificateholder against any tax, duty, assessment or governmental charge imposed on such Certificateholder in respect of such substitution;
  - (c) the Issuer (in this capacity referred to as the "**Guarantor**") has unconditionally and irrevocably guaranteed to the Certificateholders compliance by the New Issuer with all obligations under the Certificates pursuant to these Terms and Conditions;
  - (d) the New Issuer and the Guarantor have obtained all governmental authorisations, approvals, consents and permissions necessary in the jurisdictions in which the Guarantor and/or the New Issuer are domiciled or the country under the laws of which they are organised.
3. Upon any substitution of the Issuer for a New Issuer, this § 10 shall apply again.

## § 11 NOTICES

Notices relating to the Certificates shall be published in the Federal Gazette (*Bundesanzeiger*) and shall be deemed to be effective upon such publication unless such publication gives another effective date.

## § 12 LIMITATION OF LIABILITY

The Issuer shall be held responsible for acting or failing to act in connection with the Certificates only if, and insofar as, it either breaches material obligations under or in connection with the Terms and Conditions negligently or wilfully or breaches other obligations with gross negligence or wilfully. The same applies to the Paying Agent.

## § 13 FINAL CLAUSES

1. The Certificates and the rights and duties of the Certificateholders, the Issuer, the Paying Agent and the Guarantor (if any) shall in all respects be governed by the laws of the Federal Republic of Germany except for § 1 paragraph 1 to 3 of the Terms and Conditions which shall be governed by the laws of the Republic of Finland.
2. In the event of manifest typing or calculation errors or similar manifest errors in the Terms and Conditions, the Issuer shall be entitled to declare rescission (*Anfechtung*) to the Certificateholders. The declaration of rescission shall be made without undue delay upon becoming aware of any such ground for rescission (*Anfechtungsgrund*) and in accordance with § 11. Following such rescission by the Issuer, the Certificateholders may instruct the account holding bank to submit a duly completed redemption notice to the Paying Agent, either by filling in the relevant form available from the Paying Agent or by otherwise stating all information and declarations required on the form (the "**Rescission Redemption Notice**"), and to request repayment of the Issue Price against transfer of the Certificates to the account of the Paying Agent with the Clearing System. The Issuer shall make available the Issue Price to the Paying Agent within 30 calendar days following receipt of the Rescission Redemption Notice and of the Certificates by the Paying Agent, whichever receipt is later, whereupon the Paying Agent shall transfer the Issue Price to the account specified in the Rescission Redemption Notice. Upon payment of the Issue Price all rights under the Certificates delivered shall expire.
3. The Issuer may combine the declaration of rescission pursuant to paragraph 2 with an offer to continue the Certificates on the basis of corrected Terms and Conditions. Such an offer and the corrected provisions shall be notified to the Certificateholders together with the declaration of rescission in accordance with § 11. Any such offer shall be deemed to be accepted by a Certificateholder (and the rescission shall not take effect), unless the Certificateholder requests repayment of the Issue Price within four weeks following the date on which the offer has become effective in accordance with § 11 by delivery of a duly completed Rescission Redemption Notice via the account holding bank to the Paying Agent and by transfer of the Certificates to the account of the Paying Agent with the Clearing System pursuant to paragraph 2. The Issuer shall refer to this effect in the notification.
4. "**Issue Price**" within the meaning of paragraph 2 and 3 shall be deemed to be the higher of (i) the purchase price that was actually paid by the relevant Certificateholder (as declared and proved by evidence in the request for repayment) and (ii) the weighted average (as determined by the Issuer in its reasonable discretion (*billiges Ermessen*) (§ 315 German Civil Code (*BGB*)) of the traded prices of the Certificates on the Payment Business Day preceding the declaration of rescission pursuant to paragraph 2. If a Market Disruption Event exists on the Payment Business Day preceding the declaration of rescission pursuant to paragraph 2, the last Payment Business Day preceding the declaration of rescission pursuant to paragraph 2 on which no Market Disruption Event existed shall be decisive for the ascertainment of price pursuant to the preceding sentence.

5. Contradictory or incomplete provisions in the Terms and Conditions may be corrected or amended, as the case may be, by the Issuer in its reasonable discretion (*billiges Ermessen*, § 315 German Civil Code (*BGB*)). The Issuer, however, shall only be entitled to make such corrections or amendments which are reasonably acceptable to the Certificateholders having regard to the interests of the Issuer and in particular which do not materially adversely affect the legal or financial situation of the Certificateholders. Notice of any such correction or amendment shall be given to the Certificateholders in accordance with § 11.
6. If the Certificateholder was aware of typing or calculation errors or similar errors at the time of the acquisition of the Certificates, then, notwithstanding paragraphs 2 - 5, the Certificateholders can be bound by the Issuer to the corrected Terms and Conditions.
7. Should any provision of these Terms and Conditions be or become void in whole or in part, the other provisions shall remain in force. The void provision shall be replaced by a valid provision that reflects the economic intent of the void provision as closely as possible in legal terms. In those cases, however, the Issuer may also take the steps described in paragraphs 2 - 5 above.
8. Place of performance is Frankfurt am Main.
9. Place of jurisdiction for all disputes and other proceedings in connection with the Certificates for merchants, entities of public law, special funds under public law and entities without a place of general jurisdiction in the Federal Republic of Germany is Frankfurt am Main. In such a case, the place of jurisdiction in Frankfurt am Main shall be an exclusive place of jurisdiction.
10. The English version of these Terms and Conditions shall be binding. Any translation is for convenience only.
